Tested proposed SVHC Chemicals list in the Public Consultations on 3 September 2019:

	Chemical Substance	CAS No.		Chemical Substance	CAS No.
1	2-benzyl-2-dimethylamino-4'-morpholinobutyronone	119313-12-1	2	2-methyl-1-(4-methylthiophenyl)-2-morpholinopropan-1-one	71868-10-5
3	Diisohexyl phthalate	71850-09-4	4	Perfluorobutane sulfonic acid (PFBS) and its salts	--

Δ = Determination was based on elemental analysis. The content was calculated based on assumption of worst-case.

+ = The content was calculated based on assumption of worst-case.

**Notes:**

Substances of very high concern (SVHC) are classified as:

Carcinogenic, mutagenic or toxic to reproduction category 1 (proven on humans) and category 2 (proven on animals)

Persistent, bioaccumulative and toxic chemicals (PBT) Very persistent and very bioaccumulative chemicals (vPvB)

Other similar substances such as endocrine disrupters

If the imported or manufactured volume of each individual SVHC in article is more than 0.1% (w/w) and if it exceeds 1 tonne per year across all product ranges, then importer or manufacturer require notification to the European Chemical Agency (ECHA). For substances included in the Candidate List on or after 1 December 2010, the notifications have to be submitted no later than 6 months after the inclusion. The following information has to be submitted for notification: Identification of the registrant and the substance Classification and labelling of the substance Description of use of the substance and the article Registration number, if available

Tonnage range

REACH requirement:

As per article 33(1) of regulation (EC) No 1907/2006 (REACH), recipients of product must be provided with information of safe use if any of the tested substances (SVHC) exceeded 0.1% (w/w). A product meets the requirement of article 33(1) by default when no SVHC exceeds 0.1% (w/w).

As per Court of the European Union Judgment in Case C-106/14, press release No 100/15 dated 10 September 2015, each of the articles incorporated as a component of a complex product is covered by the relevant duties to notify and provide information when they contain a substance of very high concern in a concentration above 0.1% of their mass.
